**To the Arab Workers union**

Dear comrades and friends, brothers ans sisters,

Our trade union in France, Union syndicale Solidaires want to give you a strong message of solidarity.

People in Palestine and Palestinian in the occupied territories of 48 are stressed and oppressed by clear segregation and apartheid policies.

Now you are facing the attack of the extrem right and racist israeli government against your right to live in your own houses.

We support your struggle and strike and will make our best to make in known in our country.

In solidarity,

Verveine Angeli for Union syndicale Solidaires
